

MINFILE Inventory Detail Report
BC Geological Survey
Ministry of Energy, Mines and Petroleum Resources

MINFILE Number:	092INW088	Name:	SPRAY CREEK	Status:	Prospect
------------------------	-----------	--------------	-------------	----------------	----------

Ore Zone/ Year/Report On		Tonnage/ Category	Commodity	Grade	Reference/ Comments
2019	N	Assay/analysis Rock	Gold	3.175 g/t	Rock samples from the occurrence area.
			Zinc	0.103 %	Kutluoglu, R. (2020-03-24): National Instrument
			Molybdenum	0.051 %	43-101 Technical Report on the Empirical Property, Southern Interior, British Columbia, Canada
DRILLHOLE		Assay/analysis Drill Core	Gold	3.3000 g/t	Intersection across 1.01 metres of quartz veining. Assessment Report 15835.
1986					
DRILLHOLE		Assay/analysis Drill Core	Gold	3.67 g/t	Two diamond drill holes (81-03 and 81-04) are reported to have yielded intercepts including 2.10 and 3.67 grams per tonne gold over 3.00 and 21.00 metres, respectively. Kutluoglu, R. (2020-03-24): National Instrument
1981	N				
					43-101 Technical Report on the Empirical Property, Southern Interior, British Columbia, Canada
