|-----------------------------|---|----------------------|-----------|----------|---|
| Ore Zone/<br>Year/Report On |   | Tonnage/<br>Category | Commodity | Grade    | Reference/<br>Comments  |
| SHEAR                       |   | Assay/analysis       | Copper    | 6.43 %   | Two samples (Aspen-2 and -3) from the Shear zone and  |
| 2017                        | N | Rock                 | Silver    | 8.4 g/t  | Extension adits yielded 6.43 and 3.18 per cent copper with 8.4 and 4.9 grams per tonne silver, respectively. Assessment Report 37347                            |
| TRENCHES                    |   | Assay/analysis       | Copper    | 7.495 %  | three samples (2151R, 2299 and 3000) from an area of  |
| 1985                        | N | Rock                 | Silver    | 52.4 g/t | trenches yielded values from 3.388 to 7.495 per cent copper, 0.006 to 0.019 per cent molybdenum and 1.4 to 52.4 grams per tonne silver. Assessment Report 14141 |
| SHEAR                       |   | Assay/analysis       | Copper    | 1.4200 % | Average grade of sampling over a length of 30 metres and an average width of 5.2 metres.  |
| 1973                        |   | Chip                 |           |          | National Mineral Inventory.   |
| SHEAR                       |   | Assay/analysis       | Copper    | 2.40 %   | Average of three chip samples, taken across widths of   |
| 1972                        | N | Chip                 | Silver    | 4.8 g/t  | 4.3 to 4.9 metres and spaced evenly over a strike length of 17 metres from the main shear zone.   |
|                             |   |                      | Gold      | 0.10 g/t | Assessment Report 3955  |
| TRENCHES                    |   | Assay/analysis       | Copper    | 0.23 %   | A series of grab samples, taken over 60 metres, from the southwestern trenched area.  |
| 1972                        | N | Grab                 |           |          | Assessment Report 3955  |
| TRENCHES                    |   | Assay/analysis       | Copper    | 1.42 %   | Sampling of trenches is reported to have yielded an average of 1.42 per cent copper over a width of 5.1 metres and a length of 30 metres.                       |
| 1969                        | N | Chip                 |           |          | Property File – 8537  |
