

MINFILE Number:		Name:		Status:	
Ore Zone/ Year/Report On		Tonnage/ Category	Commodity	Grade	Reference/ Comments
SAMPLE			Copper	0.272 %	Seven representative trench and outcrop grab samples
		Assay/analysis	Silver	2.5 g/t	were taken and assayed from 0.0227 to 0.272 per cent
2013	N	Rock	Gold	0.192 g/t	copper, less than 0.2 to 2.5 grams per tonne silver and
					up to 0.192 grams per tonne gold.
					Assessment Report 34718; Press Release, West Cirque
					Resources Ltd., June 11, 2013
NORTHWEST			Gold	0.655 g/t	A rock sample (5801), taken several hundred metres
		Assay/analysis			north-northwest of the occurrence.
1987	N	Rock			Assessment Report 17118
MAIN			Copper	0.242 %	A sample (T2006R) with chalcocite and malachite from
		Assay/analysis	Silver	1.5 g/t	the main zone of mineralized.
1985	N	Rock	Gold	0.155 g/t	Assessment Report 14141, Figure 8a
EAST			Copper	0.196 %	A sample (2095) with malachite and epidote, taken
		Assay/analysis	Silver	2.0 g/t	from a trench located approximately 450 metres east.
1985	N	Rock			Assessment Report 14141, Figure 8a
MAIN			Copper	0.2860 %	A rock sample (A-30) taken near the centre of the area
		Assay/analysis			of mineralization.
1978	N	Rock			Assessment Report 7724, Plate 1
SOUTHWEST			Copper	0.100 %	Sample (A-413), located approximately 220 metres
		Assay/analysis			south-southwest.
1978	N	Rock			Assessment Report 7165
