

MINFILE Number:	092K 023	Name:	DORATHA MORTON (L.253)	Status:	Past Producer
------------------------	----------	--------------	------------------------	----------------	---------------

Ore Zone/ Year/Report On		Tonnage/ Category	Commodity	Grade	Reference/ Comments
CAMP			Gold	14.62 g/t	sampling of trenches from the Camp zone, over 8.30 metres in trench TR04-03
2004	N	Assay/analysis Chip			Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
CAMP			Gold	13.73 g/t	in hole C04-1
2004	N	Assay/analysis Drill Core			Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
CAMP			Gold	189.1 g/t	from a composite grab sample of a boulder blasted out of trench 89-7 on the Camp zone
1998	N	Assay/analysis Grab	Silver	651.0 g/t	Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
ADIT			Gold	329.3 g/t	sampling of the area around the number 3 and 4 adits;
1991	N	Assay/analysis Rock	Silver	200 g/t	sample JLP-92-64
			Copper	0.18 %	Assessment Report 22515
			Lead	0.83 %	
			Zinc	0.75 %	
CAMP			Gold	14.40 g/t	Drilling on the Camp zone over 0.6-metre in hole 90-12
1990	N	Assay/analysis Drill Core			Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
DRILLHOLE			Gold	21.2 g/t	diamond drilling (hole 90-6) beneath the western part of the #250 adit intersected a siliceous shear zone beneath the adit level that lined up with the structure exposed in the western drifts of the adit along with two other siliceous structures that were encountered higher in that drill hole with the near surface structure, over 0.6 metre over 0.6-metre in hole 90-12
1990	N	Assay/analysis Drill Core	Silver	80.0 g/t	
CAMP			Gold	50.87 g/t	sampling of trenches from the Camp zone over 4.3 metres in trench 89-7 on structure C
1989	N	Assay/analysis Chip			Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
DOROTHA MORTON		18,100 t Combined	Gold	12.0000 g/t	Drill and drift indicated reserves. George Cross News Letter No.68, 1987.
1987	Y				
DUMP			Gold	146.7 g/t	Selected grab samples from dumps
1987	N	Assay/analysis Grab	Silver	579.3 g/t	New Signet Resources, Statement of Material Facts, 1987

Ore Zone/ Year/Report On		Tonnage/ Category	Commodity	Grade	Reference/ Comments
CAMP	1986	N	15 t	Silver	15 kilogram surface bulk samples from trenches exposing mineralized quartz veins in the Camp (Area A) area, located approximately 200 metres to the west of the portals, assayed from 18.0 to 23.5 grams per tonne gold and 72 to 109 grams per tonne silver Assessment 15720
			Assay/analysis	Gold	
			Bulk Sample	23.5 g/t	
DRILLHOLE	1984	N		Gold	40.38 g/t drilling from two locations near the No. 5 adit, over 1.4 metres in hole No. 4 Ostler, J. (2007-06-18): The Thurlow Property and the Doratha Morton Gold Trend Crown-granted Mineral Claims
DUMP	1981	N		Gold Silver	25.0 g/t 48.6 g/t grab sample (20752) from Doratha Morton dump Assessment Report 10399
			Assay/analysis		
			Grab
