## MINFILE Inventory Detail Report BC Geological Survey Ministry of Energy, Mines and Petroleum Resources

| MINFILE Number:             |    | 093F 067                     | Name: LAIDMAN          |                                | Status: Prospect   |
|-----------------------------|----|------------------------------|------------------------|--------------------------------|--|
| Ore Zone/<br>Year/Report On |    | Tonnage/<br>Category         | Commodity              | Grade                          | Reference/ Comments  |
| DISCOVERY                   |    | Assay/analysis<br>Rock       | Gold<br>Silver         | 4.70 g/t<br>10.0 g/t           | a rock sample (JB36) from the Discovery showing area<br>Assessment Report 26928                          |
| 2001                        | N  | ROCK                         | Gold                   | 0.643 g/t                      | 4.1-metre interval of heavily silicified material between  |
| 1997                        | N  | Assay/analysis<br>Drill Core |                        |                                | two dacite dikes in Hole 97-5 on the 110 zone. Assessment Report 25380                                   |
| 1                           |    | Assay/analysis<br>Drill Core | Gold                   | 0.1167 g/t                     | 18-metre interval in Hole 97-4 on the 110 zone<br>Assessment Report 25380                                |
| 1997<br>1                   | N  |                              | Gold                   | 1.404 g/t                      | 18 samples from the 110 zone yielded from 0.114 to   |
| 1996                        | N  | Assay/analysis<br>Rock       |                        |                                | 1.404 grams per tonne gold Assessment Report 24857   |
| WEST                        |    | Assay/analysis               | Gold                   | 8.48 g/t                       | eight samples of quartz float and skarnoid material,<br>taken several hundred metres west of the Laidman |
| 1996                        | N  | Grab                         |                        |                                | occurrence, yielded from 0.456 to 8.480 grams per tonne gold Assessment Report 24857                     |
| FLOAT                       | N  | Assay/analysis<br>Grab       | Gold<br>Silver<br>Lead | 19.6 g/t<br>10.0 g/t<br>1.75 % | an angular float sample from a trench on the main (Discovery) zone Assessment Report 24234               |
| 1995<br>ROAD                | IN | Assay/analysis               | Silver<br>Gold         | 25.5000 g/t<br>2.4600 g/t      | Assessment Report 23751.   |
|                             |    | Assay/anaiysis               |                        | -                              | 4  |
