

## MINFILE Inventory Detail Report BC Geological Survey Ministry of Energy, Mines and Petroleum Resources

3, 7 ty - 1 8,7, 1 ty - 1 ty -

| MINFILI                     | E Number: | 094E 105               | Name: GO                 | AT                               | Status: Prospect  |
|-----------------------------|-----------|------------------------|--------------------------|----------------------------------|---|
| Ore Zone/<br>Year/Report On |           | Tonnage/<br>Category   | Commodity                | Grade                            | Reference/<br>Comments  |
| SAMPLE                      |           | Assay/analysis         | Gold                     | 1.01 g/t                         | A sample, taken approximately 500 metres to the north-north east.   |
| 2003                        | N         | Rock                   |                          |                                  | Assessment Report 27429.  |
| VEIN                        |           | Assay/analysis<br>Rock | Gold<br>Silver           | 297.93 g/t<br>396.5 g/t          | Sampling of the west and east ends of the Black vein yielded up to 297.93 and 165.87 grams per tonne gold           |
| 2003                        | N         |                        |                          |                                  | with 272.4 and 396.5 grams per tonne silver, respectively. Assessment Report 27429.                                 |
| VEIN                        |           | Assay/analysis         | Gold<br>Silver           | 20.27 g/t<br>225.1 g/t           | Samples of the Mid vein. Assessment Report 27429.   |
| 2003                        | N         | Rock                   |                          |                                  |   |
| VEIN                        |           | Assay/analysis         | Gold<br>Silver           | 0.67 g/t<br>92.5 g/t             | Samples of the northern vein. Assessment Report 27429.  |
| 2003                        | N         | Rock                   |                          |                                  |   |
| VEIN                        |           | Assay/analysis         | Silver<br>Gold<br>Copper | 396.5 g/t<br>165.8 g/t<br>0.01 % | Sample 02DB-134. Assessment Report 27160.   |
| 2002                        | N         | Chip                   | Lead<br>Zinc             | 3.92 %<br>9.61 %                 |   |
| VEIN                        |           | Assay/analysis         | Gold<br>Silver           | 297.93 g/t<br>272.4 g/t          | Sampling and hand trenching of the Black vein yielded values from 0.07 to 297.93 grams per tonne gold and 0.4       |
| 2000                        | N         | Chip                   |                          |                                  | to 272.4 grams per tonne silver over a strike length of 115 metres, while the easternmost sample, taken over        |
|                             |           |                        |                          |                                  | 0.15 to 0.20 metres, yielded 25.18 grams per tonne gold and 557.3 grams per tonne silver.  Assessment Report 26545. |
| VEIN                        |           | Assay/analysis         | Copper<br>Lead           | 0.390 %<br>0.964 %               | Sampling of the Mid vein yielded up to 0.390 per cent copper, 0.964 per cent lead, 0.460 per cent zinc and          |
| 2000                        | N         | Chip                   | Zinc<br>Silver           | 0.460 %<br>33.5 g/t              | 33.5 grams per tonne silver over 0.5 metre.<br>Assessment Report 26545.   |
| VEIN                        |           | Assay/analysis         | Gold<br>Silver           | 39.2 g/t<br>108.0 g/t            | Sample BK-15 from a 0.10 to 0.15 metre wide and 25 metre long vein, located at the southern end of the              |
| 1999                        | N         | Rock                   |                          |                                  | mineralized zone (Black vein). Assessment Report 26251.   |
| VEIN                        |           | Assay/analysis<br>Rock | Gold<br>Silver           | 20.3 g/t<br>225.0 g/t            | Sample DR-14 taken from a 0.20 to 0.35 metre wide and 30 metre long vein (Mid vein), located 100 metres             |
| 1999                        | N         |                        | Lead<br>Zinc             | 11.85 %<br>16.27 %               | to the north and downslope of the previous vein. Assessment Report 26251.   |

| Ore Zone/<br>Year/Report On |   | Tonnage/<br>Category   | Commodity                                | Grade  | Reference/<br>Comments   |
|-----------------------------|---|------------------------|--|--|--|
| VEIN                        | N | Assay/analysis<br>Rock | Gold<br>Silver<br>Copper<br>Lead         | 0.67 g/t<br>92.5 g/t<br>0.823 %<br>5.89 %                        | Sample DR-2 from a 0.15 metre wide vein, located a further 75 metres to the north and downslope of the previous vein (Lower or Northern vein).  Assessment Report 26251. |
| VEIN<br>1987                | N | Assay/analysis<br>Grab | Silver<br>Gold<br>Copper<br>Lead<br>Zinc | 204.7000 g/t<br>209.9000 g/t<br>0.0850 %<br>0.4470 %<br>0.2060 % | Sample R 6925, one of three samples from the same location at the southeastern end of the vein.  Assessment Report 17459.  |
| VEIN<br>1987                | N | Assay/analysis<br>Chip | Silver<br>Zinc<br>Lead<br>Copper         | 35.4 g/t<br>3.60 %<br>2.529 %<br>0.023 %                         | Sample 6926, taken to the east along the same vein. Assessment Report 17459.   |
| FLOAT                       | N | Assay/analysis<br>Grab | Silver                                   | 88.9 g/t   | A float sample (SC-40-81-9) of vuggy quartz-calcite vein with galena, sphalerite and malachite staining. Assessment Report 10705.  |
