

MINFILE Inventory Detail Report
BC Geological Survey
Ministry of Energy, Mines and Petroleum Resources

MINFILE Number:		Name:		Status:	
Ore Zone/ Year/Report On	Tonnage/ Category	Commodity	Grade	Reference/ Comments	
TOTAL	2,400 kt Unclassified	Fluorite	30 %	Possible geological reserves of approximately 2.4 million tonnes of fluorspar mineralization averaging 30 per cent fluorite.	
1981	N			McCallum, N.G. (2012-12-12): Technical Report on the Liard Fluorspar Project.	
TOTAL	3,200 kt Unclassified	Fluorite	32 %	An engineering report estimated a possible reserve of 3.2 million tonnes grading 32 per cent CaF ₂ .	
1975	N			McCallum, N.G. (2012-12-12): Technical Report on the Liard Fluorspar Project.	
DRILLHOLE	Assay/analysis Drill Core	Fluorite	39.0000 %	Best intersection, over 15 metres, hole 72-12 in Gem E showing.	
1972	N			Assessment Report 3975, page 10.
