Ore Zone/ Year/Report On	Tonnage/ Category	Commodity	Grade	Reference/ Comments	
FLOAT 2019	N	Gold Assay/analysis Grab	313.00 g/t	Two nearby float samples (667619 and 667620) with similar mineralization and flecks of visible gold assayed from 3.09 to 313.00 grams per tonne gold, respectively. Assessment Report 38989.	
NORTHWEST 2019	N	Gold Assay/analysis Grab	3.22 g/t	A sample (19037) from a sub-cropping quartz vein with tetrahedrite and pyrite mineralization, located approximately 200 metres on strike to the west-northwest of previous samples. Assessment Report 38989.	
SOUTHEAST 2019	N	Gold Assay/analysis Rock	1.22 g/t	Two rock samples (19041 and 19058) of sub-crop and outcrop from a 1.5-metre-wide mineralized quartz vein, located approximately 600 metres east-southeast of the first samples. Assessment Report 38989.	
VEIN 2019	N	Gold Assay/analysis Rock	151.50 g/t	A rock sample (19038) of sub-crop from the occurrence. Assessment Report 38989.
